

Kakadu Outback Safari - Australia

From savannah woodlands, to ancient sandstone outcrops, and towering gorges this journey takes you through an area so special that it has a World Heritage Label. Ancient Aboriginal Culture, jumping Wallabies and squawking Corellas surround you in this country of abundance. The history of this land is explained to you by your professional guide as he shows you rock art, sacred sites and the habitat of amazing animals. Each evening camping around a fire, and hearing tales of days gone by, you can understand the vastness of this land they call the never never.

Our 6 day guided tour through Kakadu National Park in Australia takes you on an experience of a lifetime. We walk and swim each day through Kakadu, and then travel through two other National Parks, Nitmiluk, and Litchfield over the six days. Your experienced guide will take you on walks, swims and canoeing through ancient landscapes, give you an insight into the Aboriginal culture, and show you animals that are only seen in abundance in this part of the world. The weather over the months of June and July is almost perfect, blue skies and an average temperature of around 26 degrees Celsius, it's a great place to get away and truly relax from the rush of modern life.

6 Day Outback Safari

The Outback Safari is great for those who want an experience of a lifetime. Each night you will be cooking over an open fire and camping out under a night of clear skies that are carpeted in bright stars. At approximately half of the camps there are showers for use and good facilities in general. Each day will involve a drive, walk and swim, your guide taking you too some unforgettable locations. Ancient Aboriginal art sites, picturesque waterfalls and meandering creeks, all await those who decide to join an Outback Safari. Canoeing up the Katherine Gorge is a great way to explore this old rock system, and if you haven't canoed before, no-problem, these boats are built for everyone in mind. This trip truly has it all.
