

Travers Sabine Circuit

An amazing back country experience, this challenging five day hike through the Heart of the Nelson Lakes is a journey into an untouched alpine world. Stunning panoramic views from the Traverse Saddle, ancient beech forest and cascading waterfalls are all part of this unique experience. There is even a chance to visit the picturesque Blue Lake; this is a magical hike into two majestic glacial valleys.

Our 5.5 day gourmet guided hike through the Traverse Sabine Circuit is an all inclusive package. This is a challenging 5 day hike and it is important that you have a good degree of physical fitness. You will be expected to carry a small amount of group equipment. We stay each night in Department of Conservation Huts, where your guides will prepare fantastic gourmet meals for you. We will be ferried the length of each of the Lakes in water taxis, and on our way back to Nelson we spend a night in the Alpine Lodge for a taste of well deserved luxury; an ensuite and the option of a spa, before we sit down to a restaurant meal. The following day we transfer back to Nelson, arriving around 11am, just in time for any connecting flights, or an opportunity to explore Nelson further.

5.5 Day Option

The Traverse Sabine is a fantastic option for those wanting to challenge themselves a bit more. Towering mountain passes and picturesque alpine tarns, await those who wish to explore the inner reaches of the Nelson Lakes National Park.
